## CARE & MAINTENANCE

The painted aluminum and exterior laminated wall and roof panels will maintain most of its original manufacturers color, however, atmospheric conditions and sun exposure may cause discoloring not covered under this warranty. Exterior laminated wall panels may require repainting as a normal maintenance procedure. The painted enamel aluminum finish is affected by normal wear and tear from exposure to extreme sunlight and normal weathering. Superior's aluminum Products are easy to maintain and can be cleaned by mixing a few teaspoons of dishwashing liquid with water in a bottle or hose sprayer and apply liberally to all exposed surfaces, then rinse freely.

CAUTION: Do not use abrasive, solvent-type materials or paint remover. Those materials may soften or remove your baked-on enamel finish.
